

Triad Learning Center has been a perfect learning environment for both my son and my daughter. The teachers are supportive and encouraging, all while preparing my child academically to start kindergarten next year. TLC is awesome!

*Katie Heither, Admissions Counselor
Grand View University*

After 3 children attending TLC preschool, I would recommend this program & the wonderful teachers to anyone & everyone! It will be a sad day after my youngest child graduates from TLC next spring, but I am confident the relationships we have made with teachers and parents will last! Thank you for taking care of my 3 babies & making our preschool experiences amazing!

Lisa Bunkers

One of the things that I really love about Triad is the curriculum; it "hides" the learning in all of the fun things that they do. Children will have many years of sitting at desks and structured learning, but here they get to play, sing, create and socialize all while learning! And, I love the gym which provides the perfect place to run out some energy and gain gross motor skills.

Megan Miller

TLC has been essential for my son. He's not only learning academic skills, but also social and physical skills. He's more confident and outgoing, Triad really gives him the tools to explore and grow his potential. TLC is the complete aid for our youth!

Natalie Eldred

We have been at Triad Learning Center for the last few years and can't say enough about how happy my husband and I are, as well as the kids! Riley (now 7) attended 4 year old preschool and the Kinderschool program. Brook (age 4) attended 2 year old tot time and is now in the 4 year old program. Avery (age 3) is currently in the 3 year old program. I also do in home daycare and both my daycare boys have attended Triad and loved it! Our kids are not only getting a great education, but are also really cared for. From day one we never worried about our kids' safety, well-being, education or experience at Triad. We truly have "peace of mind" knowing our kids are in such great hands. We have been so lucky to have found such a wonderful preschool program. The teachers and staff have so much knowledge, experience and understanding of the children and they treat each child like family. Our oldest was extremely prepared for Kindergarten, we have no doubt our middle child will be and our youngest is learning new things every day. They love their teachers and friends, which really says it all. We have recommended Triad Learning Center to friends and family in the area and will continue to do so. Thank you for providing such a wonderful, safe and happy place for our children!

Jamie Keller

From preschool to birthday parties to gymnastics, both of my girls have thrived at Triad. Not only has Triad given my children a great head start for Kindergarten, they have both gained so much confidence during their time here.

Danielle Beatty

The Triad staff truly care about my child and want to see him succeed. They focus on his specific needs and bring out the best in him!!

PS- Tracy is amazing!! She is so great with Blake and very committed to helping him be more comfortable talking in public.

Colette Huser

Triad has brought out skills and abilities in my son that I might have never known were there. He is reading books at 4 years old! The instructors have put much effort into teaching him math and reading skills that he will use for the rest of his life, and that have given him a significant head start for kindergarten.

We've been attending TLC since my oldest was 2. As my youngest finishes this year I can honestly say that the staff at TLC cares for my girls almost as much as I do. My daughters have (and will) enter Kindergarten as prepared students, understanding how to behave in a learning environment. Triad teaches the basics (letters, numbers, months, etc) thoroughly, but more than that, they make learning fun and my girls both loved going to preschool at TLC.
